

**Friday 4th May**

**Year 2 JTLYK**

### **Topic**

What amazing facts your children are telling us about dinosaurs.

They are becoming very knowledgeable and are really enjoying finding out writing about dinosaurs and when they lived.

### **Run to Rio**

We already have some children who have reached their 5 mile mark. What great runners the children are!

### **Maths**

This week we have been practising adding and subtracting 2 digit numbers and thinking about what we can draw to help us.

We have also been learning how to look at different types of maths problems.

e.g.  $90 - \square = 40$  (What goes in the box?)

### **English**

We have read the story of Danny and the Dinosaur, acted out the story to learn it as well as working with a partner to retell it. The children have begun to write the story thinking carefully about sentence construction, adjectives, and punctuation and will finish this next week.

Well done to everyone for working with such enthusiasm and energy!

### **Dates**

19th June- Visit to The Natural History Museum

(Letter given today so please ask us if you don't have one.)

Year 2 Dinosaur Museum in the morning only.

### **Bibles**

What a lovely morning Year 2 had on Thursday when Year 5 came to Pewley to give us all a bible. The children will use them as part of their RE lessons and we will send the bibles to HT for next year.
