

Just to let you know...

We've enjoyed another week of learning centred around space and the Solar System.. The children have done some super writing and beautiful artwork based on their favourite planet. This topic has really captured a lot of enthusiasm and fascination. If your child is particularly interested in the Solar System and your looking for things to do, the Winchester has a great planetarium which hosts a variety of shows about Space—there are lots of details on their website: <https://www.winchestersciencecentre.org/planetarium/general-information/#.WuwdD7mWzIU>.

Also Haslemere museum are holding a Solar System activity morning this Saturday as part of their 'Museum Explorers program'. <http://www.haslemere-museum.co.uk/whatson/whatson.html#bookmark2>

Now that we are well in to the Summer term, it would be great to start building the children's independence by encouraging them to come into the classroom on their own each morning. We know many of you already do this but it would be great if we could have everybody drop their children at the door, so we can start preparing them for Year 1.

Enjoy the sunshine and the extra day, this weekend!

The Reception Team x

Phonics

If you get a chance, go through some of the longer sounds we've been learning. Specifically: ur, ure, ear and air. There are activities in the back of the j2lyk books and Alphablocks on BBC iplayer, is fun and easy to access.
