

# Just to let you know... 23.11.12 Year One: Beech and Oak

Playing doubles pairs

## Maths Focus

This week we have been practising doubling. The children are experts at playing 'double it' now! See if they can impress you with their doubling knowledge.

Next week we are continuing to learn about doubles, recognising doubles hiding in number problems and practising solving problems.

## Sound of the Week

This week we revised 'ng'. We made king's crowns and wings. See if your child can complete one or both of the challenges! Remember to bring the books back on

**Monday!**

This week we made a new friend called Old Bear. He sent us a video asking if we could find out which materials would make the best windows, roof and walls for his house. We investigated and emailed our findings to him. The next day he sent another video thanking us and asking if we could investigate which material would make the best umbrella. We wrote him letters to tell him, and we are waiting for a reply with baited breath! If you would like to email old bear over the weekend his email address is

**old.bear@rocketmail.com**  
**Emily, Hannah, Misha and**

If you have any old toys from your childhood (or know anyone who does) we would like to invite you to come in on Tuesday morning to show them to the children, answer a few questions about your toy and have a lovely cup of tea with us! Speak to Emily or Hannah if you would like to visit .

## **HELPERS NEEDED!**

Thank you so much for those who have offered to come along to our exciting trip to Guildford museum. We still need a few more helpers for both classes. Oak are going on the 3rd December and Beech class on the 4th December.

(We have heard rumours that there may be a cup of tea in it for you at the museum!)

**If you are able to come along and help please speak to Emily or Hannah.**
