

## Maths

Please try and practise tables over the week-end and in the evenings as the children are not as proficient as they need to be.

We have looked at factors and multiples this week. Do ask them if they can explain their meanings.

We have also looked at rules for divisibility: please see attached divisibility pdf.

## Topic

We have been looking at the race to the Pole between Scott and Amundsen and the children will be writing up the chronology of the journeys for English.

In Science we looked at Penguin huddles and replicated their habits to look at insulation!

# Just to let you know...

Dear Parents,

It was lovely to catch up with you all at the parent consultations over the week. Please could we take this opportunity to remind you how important it is to ensure that the children are in their classes and ready for lessons to start promptly at 8.40 am

## Healthy Snacks

Please bring in healthy snacks for break. Too many children are bringing in crisps, biscuits and sweet treats and so we would ask you to ensure your child brings in fruit, carrots etc

## HOMEWORK ACTIVITIES

Spellings to learn are: delicious, vicious, gracious, spacious, precious, Suspicious, ambitious, cautious, infectious, nutritious, anxious, plus any three of their own.

The children have been given a small spelling book this week which they should have with them.

## H.W.

The children have been given work on how animals adapt to their environment. Please read the information sheet.

Please could you sign in your child's reading journal when they've read three times in the week. Books are in on Wednesday.
