

Just to let you know...

In English we have begun reading *The Iron Man* by Ted Hughes and the children have been drawing how they would imagine the Iron Man would have looked, using descriptions from the book.

Maths

This week we have been learning to multiply and divide by 10 and 100. Once they had grasped the concept some children were able to apply their skills to decimals too.

Please find the homework in your child's Reading Journal to consolidate their learning from the week.

Please can you continue to practise times tables with your child at home. There are some really lovely activities on this website:

SPELLINGS OF THE WEEK

actually
strangely
certainly
finally
usually
excitedly
sensation
information

temperature
investigation
Irreversible

Extension
completely
experimentation
admiration
preparation

PE

Please can the children always have their PE kits in school every Tuesday and Wednesday.

Also, due to the weather please add joggers to their PE kits and ensure a pair of socks, coat and trainers are available all week.

Many thanks!

Dear Parents,

Thank you so much to all of you who have sent in resources to help us with our Science Investigations. Please can you keep sending in any 2 litre plastic bottles for upcoming experiments.

Also, we would very much appreciate it if you could keep any spare boxes or pieces of recycling you may have lying around at home, as the children will need these to build their Crazy Inventions for homework, in a few weeks time.

These will be presented at the Materials Exhibition, which is on Tuesday 15th December at 2pm. Hope to see lots of you there!

Next week is Parent's Evening, we look forward to seeing you there.

Have a lovely weekend,
Julia, Jo and James.
