

SPELLINGS:

snail claim afraid
maintain bake escape
amaze behave

Curriculum News:

English:

Our 'Just So' stories are looking amazing and we are really proud of how hard we have worked. We are now at the editing process and have been thinking of how we can improve our writing by correcting our punctuation, varying our sentence openers, choosing more interesting descriptive vocabulary, using conjunctions and making sure our story has a clear ending that links to the beginning—pew!

Maths:

The children have continued to enjoy working with money this week. We have consolidated on adding amounts together and learned how to calculate change through the use of the Great Pet Sale. We have also been solving money related word problems.

Science:

We have continued to find out about sound and how we hear. The children had great fun learning the names of the different parts of the human ear and making their own model. They really enjoyed learning what each part of the middle and inner ear do as well as making a giant model of an ear in the classroom!

Thank you!

Thank you all for coming to see our production of Wackadoo Zoo. We hope you agree that it was a great success. The children have worked really hard over the last half term to learn the songs and their lines. We are very proud of them and feel that it has brought the year group together as a team.

Reminders:

Please remember that it is **parents evening** next week on either Tuesday or Thursday. If you do not yet have an appointment please contact your child's teacher A.S.A.P.
