

Curriculum News:

English: We have been continuing to think about persuasion this week and started writing our persuasive speeches to convince Noah to let us onto the ark.

Maths: Measurement has been our focus this week in maths, with the children becoming Noah's helpers measuring animals and furniture for the ark. We started with a focus on non-standard units and explored digits, spans and cubits before moving on to centimetres and meters.

Topic: In science we have started the design process for our very own ark! The children have been thinking about what properties the boat would need in order to float! The art carousel continues to turn and most children started their second piece. All art work will come home at the end of the half term.

guzzle

muddle

fiddle

giggle

bubble

nettle

Reminders:

Please remember PE is every Wednesday. Trainers are a must!

Well done for all the fantastic reading that is going on at home! Please do ensure that Reading Journals come into school every day.

Marwell Zoo: A parentmail will be coming out today just reminding you that the children will all need packed lunches for this trip on Thursday and wet weather gear. The parentmail also lists the mums and dads that have kindly offered to help. We hope to be back by the usual collection time.

Splash Production

The children are busy practising songs and learning lines! We look forward to seeing you all on Tuesday 22nd October at 2pm in the chapel. The children may come as any animal they want. Please do speak to us if you are unsure of costumes. T-shirts and trousers of the same colour work very well!
