

Just to let you know...

Maths

We have been getting practical in maths this week. The children have been learning about metric units of measure and how to convert between different units. The children measured objects using centimetres and converted their answers into millimetres and metres. Next, they weighed different objects and converted their answers between grams and kilograms,

There is a really good online resource to support with reading scales here
<http://www.ictgames.com/weight.html>

Literacy

"I myself will take up arms—I myself will be your general, judge and rewarder of every one of your virtues in the field." Elizabeth I.
We have been writing speeches from Queen Elizabeth 1st point of view. The children have been thinking about how she might have addressed her troops at Tilbury.

HOMEWORK

The children all worked hard on last weeks homework. This week we would like the children to fill in their pupil profile. This is a great resource for teachers to find out lots of information about each and every child in their class.
