

Year One Beech and Oak

House Netball

The children will all be taking part in a House Netball competition on Thursday afternoon. We know everyone will have good fun having a go at this.

Science

The children have been enjoying exploring our senses this week. We read some senses poetry, explored how we use our sight/hearing/touch/smell /taste. We also did a very exciting science investigation, to predict if we thought that we would like certain foods (celery/lemons/salty crisps/watercress/grapes). We then tasted them ALL (well done children!) and recorded our results to see if we now liked or disliked our tasty treats.

Sarah and Sheena

Maths Focus

This week the children have been learning how to 'take away' and some have started to write this as a number sentences eg.
8-3=5

At home try a fun activity round the tea table. How many people are sitting at the table? Ask some to leave and count how many are left! Line up all your cuddlies on your bed, count how many. Now move 3 under the bedclothes, how many are left?

Sculpture Walk

We won't be going on the sculpture walk on 14th October as it is also Harvest Assembly. We will arrange the walk for another time.

Wisley Visit

We were so lucky with the beautiful sunshine on Monday and the children had a brilliant time at Wisley. We have sent some photographs to the school website so do have a look. Thank you to the lovely grown ups who came with us. We couldn't do it without you!

Baby Photos

A quick reminder to send in a baby/toddler photo of your child as soon as possible.

Cooking Money

Thank you for the money sent in so far and it is not too late to send in your £5.

Library Books

Monday morning is library for the children so please return the book so he/she can bring a new one home.
