Maths

We have been getting practical in maths this week. The children have been learning about metric units of measure and how to convert between different units. The children measured objects using centimetres and converted their answers into millimetres and metres. Next, they weighed different objects and converted their answers between grams and kilograms. Finally they looked at capacity and converted l into ml.

There is a really good online resource to support with reading scales here <http://www.ictgames.com/weight.html>

Dear Parents,

We are looking forward to Tudor day (Tuesday 18th October), please send children in to school in their costumes; they all know what their role is for the day. Please don't forget that school closes at 12.15 next Wednesday. We hope you have a super half term.

Best wishes
Bec, Nick, Heather and Laura

English and Topic

We've had lots of fun this week, learning about Henry's six wives and the various fates they met. The children became teachers when they were made specialists of one wife and then reported back to their home group. We then looked at the features of rap and how to compose one and the children have written and performed some fantastic raps!

In SPAG this week we have investigated words ending in ough. Children know if they are to learn: 5 of these, all of these or all of these plus two bonus words. Spellings are:

- although
- doughnut
- plough
- thorough
- enough
- through
- cough
- bought
- thought
- fought

Spelling test will be every Wednesday.

(If your child has been given spellings from Heather P, they won't be learning these ones too.)

HOMWORK

Following on from converting units of measure, we felt that a little revision of multiplying and dividing by 10, 100 and 1000 would be beneficial. Children have been given a sheet to work through, based on this. Please don't spend more than 30 minutes on this!
