

Helping your child with phonics

We have enjoyed working in our phonics groups this week, practising the sounds we already know and even learning some new ones! Why not see if your child can confidently read words that use their sound of the week? If they can, see how they are at spelling them!

Maths activities to try at home

This week we have been focussing on halves and quarters. We made dragon pizzas and thought about how we could divide our pizza to share with 2 people, or 4 people. We have learned that you can cut something in halves or quarters, and you can also divide a group of things into halves and quarters. See if you can raid your fruit bowl at home and chop up a banana into quarters! Can you share some grapes into quarters by dividing them into 4 groups equally? What happens if there are 6 people or 8 people?

Year One
Beech and Oak
28th March 2014

Dear Parents,

This week the children enjoyed making dragon Top Trumps, and finding out which dragon was the strongest or fieriest! On Thursday we had an exciting dragon party! We played dragon games, ate dragon pizzas and did dragon drumming and dancing! To conclude our exciting week we had a fantastic time doing our Fluffy activities!

Emily and Hannah :)
