

Oak and Beech Class  
5th November 2016

### Maths

This week we have been exploring 2d. We went hunting about the school for shapes on Monday. **Can you spot any triangles, circles, squares or rectangles at home?**

The children have been practising using the vocabulary side, corner, straight, curved and angle to describe a shape. **On the next page is a sheet that we used to play a game. Choose a shape and describe it to a partner. Can they work out the shape from your description?**

We are looking forward to the trips to the toy museum next week (Oak on Monday and Beech on Friday). Please make sure that your child has a coat now that the weather is colder. We will return to school by lunchtime.

### Sound of the Week Books

Next Thursday children will bring home their sound of the week books. This work will relate to the phonics they are covering in class. Please don't try to do it all in one go, little and often is best! It would be great to hear how your child enjoyed this and bring the book back to school on **Tuesdays**.

### English

We had a lovely time on Monday sharing our soft toys with each other. We went off in pairs and tried really hard to listen and remember a few things about our partner's toy. We then told the rest of the class about their animal.

We enjoyed reading Michael Rosen's book 'We're going on a bear hunt' and, at the Wild Place, we repeated this whist searching for some hidden bears. What fun this was! Finally the children came up with a few of their own verses. We really loved coming up with sound words in the leaves...  
**crackle crunch, crackle crunch.**

Guess my shape
