

Just to let you know..

English

Well, what a debate we had this week— your children really surprised us with their knowledge of changing technology and the effects technological misuse can have on society.

Discussions ranged from family and societal changes to new technologies that improve our day to day life.

Thank you for your input last week-end.

Please don't forget to read with your child. It would be great if you could read newspapers or current affairs magazines too, particularly with the Referendum about Europe pending.

Thank you for all your help during SATS week; the children did seem to rise to the challenge.

We still have work to do with a new topic and English writing which needs to be completed before our final submission date to the examiners.

Nest week a group of 18 children accompanied by Helen, Mary and Tom are going to Aguilar de Campoo to stay with our Spanish friends. We do hope they will have a super time.

Please remember Fluffy Friday –27th May—please bring in your pound.

Maths

This week we have looked at Imperial measure in preparation for our Victorian topic. The children should be able to tell you how many inches there are in a foot, feet in a yard, pints in a gallon or in a quart.

Perhaps they could look up why we used inches and yards for measurement and tell us on Monday?

Reminders

Library books need to be returned to Geraldine. Please search your house and bring them back sooner rather than later.

Outstanding payments for trips, clubs plus etc need to be settled too!
