

Year 6 Group Room

The boys and girls have worked together to produce a mind map to help organise and sequence their Baffling Bodies Fact File. They were only allowed to use information they had learned already on this topic and it was amazing how much they already knew. So they used text boxes, bullet points, wowzers (thanks to Josie for coming up with that name), speech bubbles and interactive devices to provide short, punchy and clear facts. Well done all!

If you're interested in learning more about Mind Maps we recommend Tony Buzan's books or have a look at his website www.thinkbuzan.com. He writes for adults too!

Don't forget to keep reading and have a great weekend.

Lynn and Tina
