

Just to let you know...

Phonics

We will be practising and consolidating **EVERTHING** we've covered this term!

Well done to those who are coming in on their own without their parents! Whilst we love to see Mummies and Daddys in the classrooms it's also really good to build up the children's independence.

LEAPs

This week we have gone snail crazy! We have made snails out of clay, thought about what we would put in our rucksack if we had to carry everything we owned on our backs. We also went on a snail hunt and then raced them.

The children have asked if we could do some minibeast junk modelling as part of our LEAP. We plan to do this next Wednesday. If you have any cardboard, wrappers, foil, wallpaper, lids, plastic bottles, cartons etc... we'd love to have them!

Reception

Hazel & Willow

Jubilee Party Day

Next Friday (1st June) the school is having a Jubilee Day. The children will be inviting Grandparents for a tea party and the children can also dress up. The theme in Reception is 'Kings and Queens.'

We've popped a booklet in their reading records helping them to differentiate between b and d. This is an optional resource for you to use if you find your child finds this tricky.

Maths

The children have been working really hard on their calculation skills and adding numbers together. Next week we want to work on writing and forming numbers correctly. This will really help when they come to write number sentences! Have a go at practising these at home in sand, flour or pens and paint.

Cooking Corner
Icing Jubilee biscuits for our tea party!
