

Healthy Living Week

The children will need to come in PE kit and trainers every day next week.

Please could you send in any food magazines or pictures of food for us to use. Many thanks!

Wire Coat Hangers!

If you have a spare one at home please send it in. We need the very thin bendy kind (the type often used by dry cleaners) - thank you!

Friday 12th June

Challenge Box!

Make signs to direct people to your bedroom, starting at the front door! You can use arrow, words and pictures to help.

Natural History Museum

We had a fantastic day out on Tuesday and thank you so much to our grown ups who came along!

We have all be talking about what we would like our own dinosaur museum to look like and the children have come up with some super ideas (so watch this space!).

If you have any photographs of the trip could you please e mail them to us. Many thanks!

English and Maths

We have been practising quick recall of a range of number sentences involving the four operations

(+ - X and ÷).

Try playing continuous 'hop scotch' with your child, starting at 30, counting on in 2's then 3's. How far can you travel?

The children enjoyed writing an adventure story about the discovery of a large metal key. Some thought that the key might unlock a secret door in the

Natural History Museum that opens into a room containing a rare, unknown species! What is it? What does it look like and what happens next?
