

Curriculum News:

English:

This week we have continued to work on constructing sentences and the different word types. Can your child tell you about proper nouns and verbs? Later in the week we turned our focus to alliteration by writing our own silly sentences about the animals on Noah's Ark.

Maths:

The children have been consolidating their knowledge of place value and learning to order numbers. On Thursday they applied all their understanding to crack a code.

Topic:

We have worked on our cutting skills this week; cutting out our fish and the detail for our puppets.

Spellings: hope, take, make, safe, like, ride, smile, game

These are all 'magic e' words. The 'e' on the end makes the vowel say its name.

Reminders:

Please remember PE is every **Wednesday** and **Thursday**. Swimming has started with 3A on Wednesday. 3C will swim in the Spring term and 3J in the summer term.

Can you describe this leopard using alliteration?

It was lovely to see you at the Curriculum Evening yesterday. Please remember that we are always available via email and after school if you have any questions or concerns.

Best wishes.

Claire, Alison and JJ.

Reading Journals

Your child will bring home their reading journal this weekend which has a levelled reading scheme book for your child to read and discuss with you. This is in addition to the library book which may not be at the appropriate reading level but is one your child has chosen to share with you.
