

RE

We enjoyed learning about the hidden meaning of a new parable this week. 'The Two Sons' was the starting point for a very good class discussion and your children are so thoughtful and ready to share their ideas.

'Mrs Armitage and the Big Wave'

We have had great fun this week writing the story. We focussed on sentence writing and use of adjectives.

Science

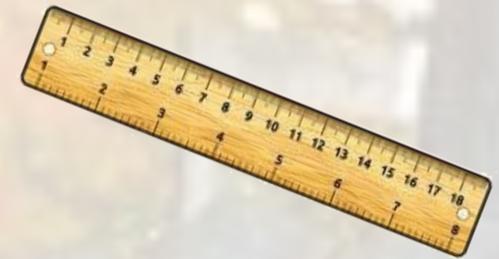

Inspired by Mrs Armitage and her need to find out which way the wind was blowing her surfboard we decided to make wind socks. We tested them in the playground and we were able to see which way the wind was blowing. Please look on the website for pictures of this.

Help needed!

We need adults to come with us on our trip to the Farmer's Market! If you can come with us on **3rd October** please let Ruth know. We will leave school at 9:30am and return by lunchtime. We plan to have a tasty Mrs Armitage picnic in the afternoon.

Maths

This week we have been thinking about measuring. We practised using a ruler to measure in cm. We made a surfboard using art straws, by measuring them carefully and cutting them to certain lengths. See if you can practise measuring things around your house. Can you order a list of objects by length or height? If you need a trickier challenge ask a friend to describe a picture to you using lengths and heights in cm and see if you can draw it using a ruler!

Homework Book

Please make sure that you are looking out for the homework coming home in the Green Homework books each Friday. In addition to reading regularly, this is a really great way to support you child with their learning when they are at home. Please send the Green book back each Wednesday.
