

Year 5 Group Room

The boys and girls have been applying research skills recently learnt in order to find out information for their Earth Summit talks. They have been revising key skills when using internet search engines, i.e. to use reliable sources of information, to type in 'for kids/children' together with key words to avoid getting items like PhD research papers and to tell an adult if anything inappropriate turns up.

Don't forget to read with your child and have a great weekend.

Lynn and Tina
