

This week in maths we have been learning all about fractions, including ordering fractions, equivalent fractions and simplifying fractions. Have a look at www.mymaths.co.uk (username: pewley password: squared), go to: level 4, number, fractions and have a look through the tutorials and activities. if you're feeling more confident, go to level 5, number, fractions.

Two other really fun websites, with great games and well worth a visit are listed below:

<http://nrich.maths.org/1249>

<http://www.math-play.com/Fractions-Decimals-Percents-Jeopardy/fractions-decimals-percents-jeopardy.html>

Please could you sign in your child's reading journal when they've read three times in the week. Books are in on Wednesday.

Just to let you know...

Dear parents,

Don't forget that next Friday is the Christmas Fair from 6-8pm, we hope to see you all there.

Next Friday is also our Christmas activity day, amongst other things, we will be making poppies for the Christmas play. If any parents would like to come in and help, please do email your child's teacher.

For the play, children who aren't in the main cast will just need a black t shirt and black bottoms (leggings or joggers).

Many thanks

Mary, Sarah, Bec and Alison

HOMWORK ACTIVITIES

This week's spellings are homophones; they have the same sound but a different spelling and definition, so it's really important that children understand the meaning of each word.

Poor/pour	there/their	grate/great
to/too	reigned/rained	
they're/there	flower/flour	pairs/pears
stares/stairs	wear/where	tail/tale
medal/meddle	forth/fourth	blew/blue

This week, the children have written blogs imagining they are tourists exploring the Antarctic. Incorporating time connectives, WOW vocabulary and interesting openers, they have really worked hard to keep their audience engaged and have produced some outstanding pieces of work!
