

Year 2 JTLYK
15th March 2019

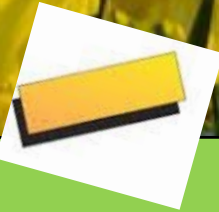

English

The children have been enjoying learning all about Under the Sea creatures and the different zones of the sea. They have been trying very hard to think about careful hand-writing and spelling. Well done!

Red Nose Day
Everyone had fun taking part in a carousel of different activities. Thank you very much for all your donations.

Maths

We have been enjoying using coins this week ! The children have been learning to identify each coin, make different amounts with the coins, play shopping games and solve simple money problems.

Next week

We are going to be teaching the children to tell the time to 5 minute intervals and using this knowledge to solve simple time problems.

**Dear Parents,
Thank you for coming to talk with us about your child. We hope that you found it helpful.**
