

Friday 20th April

Year 2 JTLYK

Welcome Back!

What an exciting week we have had! We have been busy digging and discovering dinosaur bones and fossils at The Wild Place and we have begun to find out more about dinosaurs.

Maths

Thank you for working hard at home during the Easter holiday on telling the time. The children have enjoyed noticing what the time is on the classroom clock and spotting when the minute hand is at o'clock, quarter past, quarter to, half past as well as saying what time it is at each 5 minute interval.

Surrey Space Centre

Thank you so much to Sammy's Mummy , Raffaella, for inviting us to The Surrey Space Centre. We had a wonderful time exploring the Space Centre and learning all about satellites. We are very lucky to have had this opportunity.

Art

We have created some amazing and beautiful dinosaur landscape paintings—which you can enjoy in the Art Gallery at the Dinosaur Museum on Friday morning on 6th July.

English

We have written wonderful fact files about dinosaurs in our best writing trying very hard to write in sentences. Dinosaur fact files need interesting adjectives and the sentences have included 'because, but, and .' We had fun reading our fact files to each other and puzzling out which dinosaur was being written about. You will see these fun fact files at our Dinosaur Museum.

Swimming Kit and P.E. Kit

Just a couple of reminders. For P.E. shorts are better than joggers on hot days so please send some in if at all possible. Also, if the children forget their own swimming kit and towel we do have a few spares. If they use it could you please wash it and return asap as we don't have lots to spare. Thank you.
