Just to let you know...

Dear parents,

It has been a busy week in year 4! We had a fabulous day on Monday launching our Spring topic 'Material Mayhem'. You should have received the topic web with all of the terms activities on it last week.

We are very much looking forward to the Science Museum Trip on Tuesday 24th January and now have enough parent helpers thank you.

Have a great weekend!

Jo, James, Rachel, Maggie and Chloe

English

We have continued to read George's Marvellous Medicine by Roald Dahl . We finished writing up our recipes and shared them with our classmates. Later in the week we focused on direct speech and performed and recorded conversations between Grandma and George.

Maths

The children have worked on weight, capacity and length this week. The teachers have had fun rotating classes and working with all the children. They children have enjoyed having this hands on experience and investigating in groups. Why not have some fun at home this weekend measuring objects, or weighing ingredients out for some baking together!

Spellings

Thank you for helping your child to learn their spellings. The spellings for this week are below:

reign, knot, male, except, medal, affect, herd, weight, plane, mane

Science

Our week started with the 'Big Drop Launch' which involved making parachutes for eggs, investigating how shoes have different friction with a surface, the force needed to shoot marshmallows using a balloon and cup plus testing balloon rockets. It was a great day and the children learnt lots! We have since evaluated our investigations focusing on the use of scientific vocabulary to explain what we observed.

Swimming and P.E. reminder

Monday— All classes need full P.E. kit.
Wednesday—4JM need swimming kit. 4JW and 4R need full P.E. kit.

Homework

The homework this week is for the children to use their knowledge of volume and capacity to add amounts in millilitres for a marvellous medicine for George!
