

# Year 6

## Just To Let You Know

### 05.06.26

Dear Parents & Carers,

We hope that you had a restful half term break. Welcome back to the final half term of the year!

The time for our residential is fast approaching! We have sent a hard copy of the kit list home. If you have any questions about anything on the list, please contact your child's class teacher. Remember, the three things that the children should be able to do confidently and independently before coming to Preston Montford are: to put a duvet cover on a duvet, and pillow case on a pillow; to spread butter on a bread roll with a knife; and to wash be able to wash their own body and hair in a shower.

### STEAM FAIR MATHS

Now that bank holidays have been introduced (1871) and there has been an improvement in pay for certain parts of society, the public have begun to express the desire for popular entertainment. Year 6 have taken on the role of entrepreneur and, after receiving a hefty loan from the bank, they have decided to design and create Britain's first permanent steam fair.

They have drawn their blue prints, calculated building costs and kept track of their ever-changing bank accounts.

Only time will tell if these entrepreneurs will make a success of this brand-new venture!

### English

Love was in the air this week, as we composed love letters from one character to another from The Highwayman poem.

The children used their most romantic and emotive language to express their starry-eyed feelings.

Our best tip was to imagine the thing you love the most (pizza, a football, the family hamster) and write to that!
