

Year 5

Just To Let You Know

10th July 2026

Dear Parents and Carers,

Another hot week which the children have dealt with well. Thank you for your support in sending the children in with sunhats and water bottles, as well as reminding them not too run around too much at lunch and breaktimes.

All the children appreciated meeting their new teachers and classmates for what will be their final year at HT. Please do come in on Monday 20th where children are very welcome to take you up to their new class and meet their new teacher.

This week in English, the children have worked very creatively in groups as they completed their informative leaflets about different biomes. In maths, we have been learning about time. Please encourage your child to practise telling the time in different ways, for example, saying both "25 past 6" and "35 minutes to 7".

In science, we investigated air resistance and water resistance through a range of practical activities and discussions.

As the weather is expected to remain hot, please continue to send your child to school with a named water bottle, sun cream already applied where possible, and a hat to help keep them safe and comfortable in the sun. Thank you for your support.

Thank you as ever for all your support,

Team 5

Kayleigh, JJ, Helen and Scarlett
